SEAHAM RIPARIAN HEALTH AUTHORITY

Annual Report for 1964

*SECTION I - Staff

No change.

SECTION II - Amount of shipping entering the district during the year

Table B

Ships from	Number	Nett Register Tonnage	Number inspected		Number of ships reported as having, or having had during the voyage, infectious disease on board
			By the Medical Officer of Health	By the P.H. Inspector	
Foreign Ports	12	6,854	Nil	Nil	Nil
Coastwise	994	651,158	Nil	Nil	Nil
Totals	1,006	658,012	Nil	Nil	Nil

SECTION III - Character of shipping and trade during the year

Table C

PASSENGER TRAFFIC	{ Number of passengers INWARDS - Nil. Number of passengers OUTWARDS - Nil.
CARGO TRAFFIC ..	{ Principal IMPORTS - Timber Principal EXPORTS - Coal; spent oxide; moulding sand; agricultural limestone.
PRINCIPAL PORTS from which ships arrive - London, Poole, Portsmouth, Southampton, Aberdeen and Montrose.	

SECTION IV - Inland barge traffic

Numbers and tonnage using the district and places served by the traffic -
None.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance and that it has not been completely solved. The author then proceeds to a detailed analysis of the problem, showing that it is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

2. The second part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient. The author then proceeds to a detailed analysis of the problem, showing that it is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.
